Program Summary

The people in your organization who are in leadership positions must know how to bring out the best in everyone. Effective leaders are trustworthy, confident, and encourage employees to grow, take risks, and excel in their positions. As leaders are needed at all levels of the organization, the optimal scenario is to have all of your employees take on a leadership role.

Grounded in five core behaviours that Jim Kouzes and Barry Posner identified as critical for effective leadership in their book *The Leadership Challenge*®, participants learn how to Model the Way, Inspire a Shared Vision, Challenge the Process, Enable Others to Act, and Encourage the Heart.

CLIENT-CENTRED DESIGN

The LDP was designed through extensive consultation with business and leadership specialists in North America. This program is aligned with today's best leadership knowledge and practices.

360 DEGREE LEADERSHIP ASSESSMENT

You will complete a 360 degree leadership competency assessment (Leadership Practices Inventory) to help you identify your leadership strengths and opportunities for improvement.

MYERS-BRIGGS TYPE INDICATOR (MBTI)

Learn about your personality type and others through the MBTI Step II, which describes your personality as a collection of preferences for how you are energized, take in information, make decisions, and choose to relate to the world.

INNOVATIVE LEARNING APPROACH

Based on contemporary principles of interactive and experiential learning, LDP builds knowledge and skills through group participation, practice, self-assessments, reflection, and up-to-date materials.
