

I want to sincerely thank you for your support of the Edwards School of Business. For me, this scholarship support has provided many tremendous academic and professional opportunities. As a fifth-year student, working towards completing a Bachelor of Commerce majoring in marketing and a Bachelor of Arts majoring in psychology, this generous donation will allow me to continue to focus on my academic success, as it will enable me to dedicate more time to studying and exceling in my courses.

In addition to providing me with more opportunities to academically succeed, this scholarship will enable me to focus on my professional development. Specifically, it will allow me to attend more professional development workshops, participate in various networking sessions, and focus on leading the Marketing Students' Society as Co-President.

Furthermore, this award will allow me to pursue more of my personal interests, specifically volunteer coaching junior and high school basketball, as well as playing in several basketball leagues. Having the opportunity to not only professionally develop, but to also create meaningful connections within the community is incredibly important to me. This is because it allows me to focus on improving my mental and physical health, while simultaneously allowing me to meet new people and learn new perspectives from their experiences.

I want to sincerely thank you for, not only your continued support of the Edwards School of Business but for providing me with this generous donation. I am incredibly honored and grateful to receive such a prestigious award and am looking forward to the new academic, personal, and professional opportunities that I will be able to pursue in my final year of university.

I would like to display my sincere gratitude and say thank you so much for your generosity. The investment you have given to my education means the absolute world to me and helps show all the hard work I've given to my studies over the past year was worth it.

As a third-year accounting student at the Edwards School of Business, I have big dreams, and this award is encouraging me to further pursue those dreams. In my spare time, I love learning about different cultures, and I hope to complete a study abroad session next summer. I've been told that as an accountant, this might be a waste of my time or money, but I instead see it as an extension of my learning as the world can teach us so much, and I will work hard to get there.

At the university, I am currently involved with the Campus Club, Enactus, and have seen first-hand the opportunities that business skills can provide. After I graduate, I plan on achieving my CPA designation, but I'm not quite sure what will happen afterwards. I could continue down the path of a traditional accountant, or I can open my own business (I've always had a dream of running a hotel).

I absolutely love how this school can give me so much hope and opportunities, and I do want to say thank you again for the award. I hope to be able to one day inspire other students in a similar manner of your never-to be forgotten generosity.
