EDUCATION

OUR MISSION

Together, we enable learners to become socially conscious professionals through transformative educational experiences and we create knowledge that positively impacts businesses and communities in Saskatchewan and beyond.

At Edwards Executive Education, we develop business professionals that drive progress.

INTERACTIVE AND EXPERIENTIAL

Interactive and experiential learning is at the core of every program development to provide learning that is fully immersive for participants to implement their learnings effectively. This ranges from single day workshops, multi day hands-on sessions, to full-week retreats.

ACCOMPLISHED FACILITATORS

We work with facilitators all over North America to bring a balanced combination of academic and business experience into the classroom. Our facilitators are specialists in their industry and bring real-world experiences to disrupt your way of thinking and empower you to innovate.

SMALL CLASS SIZES

Our programs have an average class size of 20 participants with a maximum enrolment of 30 in each program to allow for more engagement opportunities amongst participants and facilitators to ensure everyone has an opportunity to speak and take away what they expected from the program.

NETWORKING OPPORTUNITIES

We focus on bringing individuals from various organizations, industries, and locations together to discuss topics that are relevant to our community. Programs are designed with ample one-on-one and group discussions including networking opportunities in-person in our networking hub.

Globally Recognized. Locally Rooted.

Edwards Executive Education is proud to be recognized for the third consecutive year in the Financial Times Executive Education Open Rankings, placing it among the world's leading providers of professional and leadership development.

This global recognition reflects the strength of our programs, which are evaluated on participant satisfaction, teaching quality, and real-world impact—reinforcing our commitment to delivering high-quality, transformative learning experiences for today's professionals and organizations.

Advanced Certificate in Professional Coaching

The Advanced Certificate in Professional Coaching (ACPC) is an intensive, cohort-based program that equips professionals with the practical skills and confidence to coach individuals and teams through growth and change.

As a Level 1 ICF-accredited program, ACPC is fully aligned with the International Coaching Federation’s Core Competencies and Code of Ethics and prepares participants toward the Associate Certified Coach (ACC) credential.

Through a blend of in-person learning, applied practice, and mentored coaching, participants build advanced communication, feedback, and reflective skills while progressing along the ACC pathway. While additional coaching hours are required to achieve the ACC designation, graduates leave with strong foundational capability and the credibility to drive meaningful impact in their organizations and beyond.
